

### Session evaluations for Master of Science in Analytics boot camp, Fall 2018

*Description:* The boot camp included several sessions on R, git, and bash. I was one of three instructors for 16 total hours of R sessions. I was the primary instructor for 8 hours and served as an assistant for the other instructors for the remainder of the time. The evaluations below referred to *all* the R sessions, not just the ones for which I was the primary instructor.

<i>Question</i>	<i>Mean</i>
Q: The R material was well presented. (1 = strongly disagree; 5 = strongly agree)	4.53 (strongly agree)
Q: The appropriate material was covered during the R sessions. (1 = strongly disagree; 5 = strongly agree)	4.58 (strongly agree)
Q: The R subject matter will be useful during the program. (1 = strongly disagree; 5 = strongly agree)	4.75 (strongly agree)
Q: I learned a lot during the R sessions. (1 = strongly disagree; 5 = strongly agree)	4.64 (strongly agree)
Q: The R exercises were useful. (1 = strongly disagree; 5 = strongly agree)	4.56 (strongly agree)
Q: The pace of the R sessions was... (1 = too slow; 5 = too fast)	3.44 (neither too slow nor too fast)
Q: How familiar were you with R prior to these bootcamp sessions? (1 = not familiar; 5 = very familiar)	2.83 (a little familiar)
